

FLAGS

	<p><u>GREEN FLAG:</u> This flag should be displayed at all times when the track is clear and racing is under way. It must be removed when the yellow or red is shown.</p>
	<p><u>YELLOW FLAG:</u> This flag should be shown and held steady for an incident that is not obstructing the track. For an incident obstructing the track it must be shown waved.</p>
	<p><u>RED FLAG:</u> This flag must be shown only under instruction from Race Control. It must be kept out of sight at all other times.</p>
	<p><u>BLUE FLAG:</u> This flag should be shown to a driver who is about to be overtaken. It takes quite some experience to determine which is the faster car, therefore if in doubt don't use the blue flag.</p>
